Profile

I am an Oracle DBA with over 4 years of experience working in large companies. Since the beginning of my career I have been using different versions of Oracle RDBMS (8i-10g) on multiple operating systems. I have gained a status of Oracle 9i Certified Professional DBA and continuously improve my professional skills to fulfill the requirements for Oracle 10g OCP DBA. I have an experience with OLTP and Data Warehouse databases of different sizes (up to 4 Tb).

Education & Qualifications

Education

National Technical University of Ukraine 'Kiev Polytechnic Institute',
2001 - 2007

MSc in Computer Science

Specialty - Computer Systems and Networks

Thesis Subject – Optimizing Oracle RDBMS
Performance

International University of Finances (Kiev),
2003 - 2005

BSc in Economics,

Specialty - Finances

Professional Certifications

Oracle9i OCP DBA (2007)

Microsoft Certified Professional (2003)

Occupational Training

- Oracle 9i DBA Fundamentals I (2006)
- Oracle 9i DBA Fundamentals II (2006)
- Oracle 9i Performance Tuning (2006)
- Oracle10g New Features for Administrators (2006)
- Administration of IBM AIX operating system (2006)
- Programming a Microsoft SQL Server 2000 Database (2004)

Exams passed

- Introduction to SQL in Oracle 9i (1z0-007) (2006)
- Oracle 9i DBA Fundamentals I (1z0-031) (2006)
- Oracle 9i DBA Fundamentals II (1z0-032) (2007)
- Oracle 9i Performance Tuning (1z0-033) (2007)
- Designing and Implementing Databases using MS SQL Server 2000 (70-229) (2003)

Referees

My references from previous employers are first class. Contact details are not included, but are available on request.

Personal profile

Self motivated, communicable, quick learning, structural thinking, reliable & trustworthy, a team player, good analytical skills, result oriented.

Career Summary

Aug 2006 – Present	Oracle DBA at Jet Infosystems
Jan 2005 – Apr 2006	Oracle DBA at Entry (Foxtrot Group of companies)
Jan 2004 – Dec 2004	Oracle DBA at UBIS ltd.
May 2003 – Dec 2003	Database Developer at UBIS ltd.

Professional Skills Profile

- Experience in administering and development of Oracle databases.
- Monitoring and tuning of production databases;
- Creation and maintaining of scripts for (SQL, PL/SQL) for administering, tuning and backup strategy of databases;
- Oracle Server installation and patching
- Maintaining Oracle databases under Solaris, IBM AIX, HP-UX, Linux, Windows Server operational systems to provide 24x7 accessibility
- Implementing of backup strategy using RMAN & Veritas Netbackup
- Oracle RDBMS performance tuning
- Oracle RAC (Real Application Clusters)
- Oracle DataGuard (standby)
- Enterprise Manager using Oracle Management Server
- Oracle Advanced Replication
- Consulting Oracle developers and database users
- Database creation, patching and migration
- Bulk loading and export&import of data (SQL*Loader, imp/exp)
- Good knowledge of PL/SQL and Oracle supplied packages
- Capacity planning

Employment Details

Aug 2006 – Present

Oracle DBA

[Jet Infosystems](#) (outsource in [Vimpel-Communications](#), [Beeline™](#))

- Administration and maintenance of very large (up to 4 Tb) billing and DataWarehouse databases
- Install, configure and upgrade Oracle server software and related products in a UNIX environment
- Troubleshoot and correct challenging Oracle technical issues
- Tune the database to ensure optimum use of resources
- Creation and support of system documentation and maintenance scripts
- Create and implement Oracle backup and recovery methods and disaster recovery methods using RMAN and Veritas Netbackup
- Monitor and report database capacity and perform metrics
- Control and monitor user access to databases and maintain database security

Database versions: Oracle 8i,9i,10g,
OS: Solaris, Windows 2003 Server,
Technologies&Tools: RMAN, DataGuard, OEM, PL/SQL Developer, Veritas Netbackup, Quest Spotlight, Sybase PowerDesigner

Jan 2005 – Apr 2006

Oracle DBA

Entry ([Foxtrot](#) group of companies)

- Maintenance of accounting and report system databases (RAC environment up to 900-1100 of sessions in single DB)
- Configured DataGuard environment for production database; implemented graceful switchover and switchback between RAC production and RAC standby databases
- Implemented hot database backup system using RMAN and Veritas Netbackup
- Creation of new databases, troubleshooting, RMAN backup and recovery, proactive database and system maintenance, proactive monitoring, security, research and development, all levels of performance tuning and support
- Took part in configuring a four node 9i RAC on Windows 2003 Server platform with EMC SAN storage
- Consulting developers on Oracle features and solving different tasks during development process
- Implementation of report system and data replication; optimization of replication process and performance of reports
- Developed, planned, and implemented full multi-site disaster recovery and high availability solutions

Database versions: Oracle 8i,9i,10g
OS: Windows 2003 Server, Linux Red Hat AS 3
Technologies&Tools: RMAN, RAC, DataGuard, Replication, OEM, PL/SQL Developer, Quest Spotlight, Sybase PowerDesigner, Veritas Netbackup, TOAD

Jan 2004 – Dec 2004

Oracle DBA

UBIS ltd

- Maintenance of railroad automation system “Express UZm” of South-Western Ukrainian Railroad (system for selling railroad tickets, accounting and report)
- Supported Oracle 9i RAC production and testing DBs on HP-UX platform
- Implemented hot database backup system using RMAN and HP DataProtector

- Practical advices and recommendations on Oracle9i development for system developers
- Took part in deployment of Oracle database environments for 25 branches of Ukrainian Ministry of Finance (Information Analysis System Project)

Database versions: Oracle 9i

OS: HP-UX, Windows 2000 Server

Technologies&Tools: RMAN, RAC, OEM, PL/SQL Developer, Sybase PowerDesigner, HP Data Protector, Oracle Designer

May 2003 – Dec 2003	Database developer	UBIS ltd
---------------------	--------------------	----------

- Development of information and analytical system for Ukrainian Department of Control and Supervision

Database versions: Oracle 9i

OS: Windows 2000 Server

Technologies&Tools: PL/SQL Developer, Sybase PowerDesigner, Crystal Reports, Borland Delphi
